**Cross-border dispute resolution and mediation are gaining importance in Europe due to the growing mobility of EU citizens, the intensification of trade and the expansion of e-commerce.**

**The project aims to tackle the lack of uniformity in mediation training standards among EU countries and to ensure reliability and quality of performance in the cross-border civil mediation practice.**

Through a tailored training curriculum for international mediators, providing a comprehensive set of specialized knowledge, technical competences and intercultural skills, InMEDIATE enables trainees to operate successfully in cross-border civil disputes.

## OBJECTIVES

- ✓ **Map national training programs for mediators and best practices across the EU**, providing an assessment of training gaps and needs.
- ✓ **Equip mediation practitioners** with specialized competencies and skills enabling them to properly deal with international mediation procedures, including digital technologies for Online Dispute Resolution
- ✓ **Develop a set of uniform quality standards** to align the learning outcomes of InMEDIATE training curriculum with ECVET system of qualifications, fostering the mutual recognition of competencies and contributing to increased professional mobility in this sector
- ✓ **Foster the professional development of mediation trainers** through best practices sharing and delivery of specific methodological guidelines
- ✓ **Implement a transnational e-learning platform** for the exchange of knowledge & good practices in the field of cross-border civil mediation
- ✓ **Build a qualified EU network of professional mediators** specialized in the field of cross-border civil mediation, for a better employability and career enhancement in the international labor market

## RESULTS

- **Training Curriculum for International Civil Mediators**
- **E-learning platform for International Civil Mediators**
- **Methodological guidelines for the replication of the training model and certification system**
